

Sign, and Pecorative Painter, and Glazier

No. 59 LOUISIANA AVENUE.

Between 6th and 7th Streets,

WASHINGTON, D. C.

Sign and Decorative Painting of every description done to order. FLAGS, BANNERS and TRANSPARENCIES, PAINTED and ORNAMENTED.

AMERICAN AND EUROPEAN PATENTS, MUNN & COMPANY.

PROPRIETORS OF THE

SCHEMPHPHC MANIE RICAN.

And agents for procuring American and Foreign

with nineteen years experience in the business.

Refer to Hon. Joseph Holt, Hon. W. D. Bishop, Ex-commissioner of Patents, and to more than FIFTEEN THOUSAND INVENTORS who have had business done through Munn & Co's Patent Agency.

Messrs. Munn & Co. have a sted as attorneys for inventors for the past 19 years, during which time they have applied for upwards of 15,000 patents. Nearly one-third of all the patents issued at Washington are procured through Messrs. M. & Co's a gency; and more than three-fourths of all the patents taken in foreign countries by American citizens are obtained by them.

CIRCULARS AND HANDBOOKS OF ADVICE, concerning the procuring of American or foreign patents, may be had GRATIS, on application to

> MUNN & CO., 37 Park Row, New York, and Corner of F and 7th Streets, Washington, D. C.

Patents are now granted for seventeen years instead of fourteen years, as under the old law.

Mutual Fire Insurance Co.,

OF THE DISTRICT OF COLUMBIA.

CHARTERED BY CONGRESS.

CAPITAL, \$135,000 Securely Invested.

This Company offers to the property holders of the District the same protection as other Companies, at about two thirds of the cost. The fact that all of the Insurance Companies of the District are declaring large dividends to their Stockholders, at once shows the great profit on their premiums, and the consequent saving to persons insuring with this Company.

ULYSSES WARD, President.

CHARLES WILSON, Secretary. JOHN C. MCKELDEN, Treasurer. MANAGERS:

BOYD'S

WASHINGTON AND GEORGETOWN DIRECTORY.

CONTAINING ALSO A

BUSINESS DIRECTORY

OF

WASHINGTON, GEORGETOWN AND ALEXANDRIA.

TO WHICH IS PREFIXED

A GUIDE; SKETCHES OF AMERICAN AND OTHER WARS; PRESIDENT AND CABINET RECORD FROM 1789 TO THE PRESENT TIME; XXXVIII CONGRESS; DEPARTMENT DIRECTORY WITH FULL LIST OF CLERKS, ETC.; AMERICAN AND FOREIGN DI-PLOMATIC, CONSULAR AND AGENTS, WITH

COMPILED BY ANDREW BOYD.

1864.

To find out all the Names, and true spelling thereof, is full of difficulty.

WASHINGTON, D. C.:

HUDSON TAYLOR, 334 PENNSYLVANIA AVENUE.

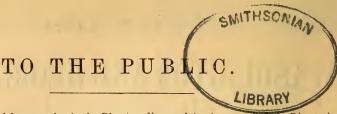

PHILP & SOLOMONS,

BLANCHARD & MOHUN,

PENNSYLVANIA AVENUE, COR. 11TH WEST.

332 PENNSYLVANIA AVE.

red according to Act of Congress, in the year 1863, by ANDREW BOYD, in the Clerk's Office of the District Court of the United States for the District of Columbia.

Mr. Boyd bears a high reputation in the Directory line, and having compiled the Directories for this city (except the two last), which were always deemed reliable and gave good satisfaction, makes him familiar with the names and the way of going about the business to get full and correct information. He has been liberally patronized in his present work, which is mainly through our business men believing in his being able to give them a good Directory.—Constitutional Union.

Mr. Boyd is scrupulously particular about issuing a good Directory—is exacting in having his canvassers do their districts thorough, and takes a pride in having people satisfied with his efforts to get up a book they know to be as near approximating to correctness as it is possible for works of this kind to be.—Evening Star.

Mr. Boyd has had a long experience in this business, and always has given satisfaction in his works. He ought to meet with a very liberal encouragement.—Sunday Morning Chronicle.

Mr. Boyd is faithfully trying to issue a good Directory; his system of canvassing is such as to require no after copying; hence many mistakes are avoided which would creep in when transcribing such a voluminous list of names.—National Republican.

Mr. Boyd's compilation of our Directories in former years, was the most complete and perfect we have had, and he is now using every effort to give us a reliable book, such as we ought to have.—National Intelligencer.

Bro. Boyd has had a long experience in this business, and has given very general satisfaction in his works. He is particular in making a thorough canvass of the city.—National Freemason.

Having compiled Directories for Washington and Georgetown previous to 1862 (of which the above notices make mention), I need say but a few words in my preface of thanks to those who have shown their due appreciation of my having again resumed its compilation, and my efforts to issue a good Directory, by their more than usual liberality towards the present work. This

is flattering indeed.

The rapid growth of the city during the last two or three years, from about 65,000 to more than 130,000 inhabitants, has more than doubled the labor and difficulty of collecting information in a city like Washington and in these times, while the increased size of the work has increased its cost, everything in the book line has also doubled in price; yet no part of information has been curtailed; on the contrary, much has been added—a Map—Complete Guide to the city—Department Directory of all Government Offices and Clerks—a Record of Presidents and Cabinets from 1789—Sketches of Wars, and other interesting matter. To give all this, I have been to much expense—too much indeed—were it not that I look forward another year to additional subscriptions and advertisements, believing that those who do not patronize the work this year, will, appreciating my efforts, and consulting their own interests by putting their cards before the public, favor us in the next issue. I intend to add improvements another year; some of these are suggestions by the citizens, spoken of too late to be incorporated in this edition.

A Directory, though not classed in the catalogue as light literature, is yet a book of infinite variety, full of curious instruction and of pregnant hints at the marvels of great cities. "It is a handy thing to have in the house;" indispensable in counting rooms, stores, offices and hotels; to ladies when going shopping or addressing their "invitations;" to the stranger in being directed to a friend, or the citizen in hunting up some out of the way individual whose very

next door neighbor may never have heard of.

Every name, if you will, in the Directory, may be the clue to a romance. It goes through the ramifications of city life; the denizens of aristocratic mansions and low alleys are mingled together, for the alphabet is inexoroble; they get their positions as Oliver Twist got his name, by the order of the letters. If any one should pronounce any unnatural combination of sounds that can be expressed in a dozen letters, on turning to the Directory he will find it a name belonging to somebody. Generally, the most numerous of Christian names is John and of surnames Saith. An editor says there is an ancient tradition, he fears of recent date, that when Adam was naming the human family, he became fatigued as night approached, and calling the still waiting throng to him, said, "I have no more time to attend to you; you shall all be called Smith."

Some individuals who feared the conscription, refused the honor of seeing their names in print, they will be agreeably surprised no doubt on discovering that their names are in the

Directory.

The Directory for 1860 contained 231 pages; 1862, 264 pages; 1863, 304 pages, and the present one, though printed in smaller type, over 370 pages, and near 25,000 names; an increase of 66 pages and about six thousand names over the last Directory. This shows that the canvassing has been faithfully done.

THE COMPILER.

SPECIAL NOTICE

IS CALLED TO THE FOLLOWING

INDEX TO ADVERTISEMENTS

OF ENTERPRISING BUSINESS FIRMS,

Whom we respectfully recommend to public patronage.

	m
Adams' Express Company,back cover	Dailey O. A., dentist 1

STREET DIRECTORY.

THERE are 1170 blocks or squares, bounded by 21 Avenues and over 100 Streets. itol is the division of all the alphabetical and numeral streets. The alphabetical A, B, C streets, having North affixed to them, are on the north side of the city, running from the east to west, divided by East Capitol Street from the A, B, C streets on the south side, which have South affixed to them, and which run parallel with the north A, B's, &c., thus making duplicate streets, but particularly differing from each other with the "north" and "south" attached.

The numeral streets, called East 1st, 2d, and West 1st, 2d, 3d, &c., run north and south, and are divided into East and West by Capitol Street, which runs directly through the centre of the city at the Capitol; one end is called South Capitol, the other North Capitol. The numeral There are duplicates of these streets also, but streets cross the alphabetical and the avenues.

distinguished from each other by East and West.

MUTUAL LIFE

View of the Capitol.

District of Columbia, created by Congress, July 16th, 1790.

Corner stone of the District laid April 15th, 1791.

Corner Stone of the Capitol laid by George Washington, Sept. 18th, 1793.

U. S. Government removed from Philadelphia to Washington, June, 1800.

Congress first convened in the new Capitol, 3d Monday of Nov., 1800.

The District of Columbia is a sui generis tract, neither State nor Territory, but set apart, probono publico, as the seat of the Federal Government. It was ceded to the United States for this purpose by Maryland. It occupies an area of sixty square miles. Originally its measure was one hundred square miles, the additional forty coming from Virginia. It included the city of Alexandria, a few miles below the metropolis on the Potomac. This part of the cession was, however, retroceded in the year 1846. The present cities of the District, are Washington and Georgetown. Maryland lies upon all sides except the south-west, where it is separated from Virginia by the Potomac River.

The District is governed directly by the Congress of the United States, and its inhabitants have no representation, and no voice in the Federal elections.

WASHINGTON CITY.

Washington City, the political Capital of the United States, is in the District of Columbia, on the banks of the Potomac River. It is 40 miles from Baltimore, 136 from Philadelphia, and 226 from New York, with which cities, as well as with all the chief towns of the Union, it is connected by railway. When the original plan of Washginton shall be realized in its full growth to the proportions it was designed to reach, it will be in its own right, and without the aid of its official position, one of the great cities of the Union. It would be difficult to invent a more magnificent scheme, than that of the founder of Washington, or to find a location more el gible for its successful execution. Its easy access from the sea, gives

it every facility for commercial greatness, and its varied topography almost compels picturesque effect and beauty.

The site was chosen by Washington himself. The scene from the lofty position of the dome of the Capitol, or from the high terrace upon which this magnificent edifice stands, is one of unrivaled beauty, and it gives the visitor at once and thoroughly, a clear idea of the natural advantages of the region, and of the character, extent, and possibilities of the city. Looking eastward, for the space of a mile or more, over a plain yet scarcely occupied, the eye falls upon the broad and beautiful waters of the Potomac, leading by Alexandria and the groves of Mount Vernon, to the sea. Turning west-ward, it overlooks the city as it at present exists, upon the great highway of Pennsylvania Avenue, to the edifices of the State and Treasury Departments and the President's House, the Avenue dropping towards its centre, as a hammock might swing between the two elevated points. Around, on other rising grounds the various public edifices are seen with fine effect; and, turning again to the left, the view takes in the broad acres of the new national Park, in which are the many unique towers of the Smithsonian Institute, and the soaring shaft of the Washington Monument; off, in the distance, across Rocky Creek, are the ancient looking walls and roofs of Georgetown.

The Capitol.

The Capitol, in its magnitude and in its magnificence of marble and domes, and upon its bold terrace height, will have attracted the visitor's curious wonder miles distant, whichever

The corner way he may have approached. stone of this imposing structure, was laid by Washington himself, with great masonic array, Sept. 18th, 1793. In 1814, it was burned by the British, together with the Library of Congress, the President's House and other public It is built of freestone and painted white. In 1818 it was entirely repaired, and in 1851 (July 4), President Fillmore laid the corner stone of the new wings, on which occasion the Hon. Daniel Webster delivered a brilliant oration Its whole length is 751 feet, and the area covered is four and one-third acres. surrounding grounds which are beautifully cultivated and en bellished by fountains and statuary, embrace 30 acres. The Senate Chamber and the Hall of Representatives of the Congress of the United States, are in the wings of the Capitol, on either side of the central building.

The next grand feature of the Capitol is the Rotunda, its diameter is 96 feet, and height 220, on the first floor, it is divided into eight panels, in each are paintings representing r-spectively, Embarkation of the Pilgrims for America, by Weir; Landing of Columbus, by Vanderlyn; The Baptism of Pocahontas, by Chapman; Discovery of the Mississippi River, by De Soto, by Powell; Declaration of Independence; Surrender of Genl. Burgoyne; Surrender of Cornwallis and the British Army, at Yorktown, by Col. John Trumbull. Between the panels, in bas relievos, are four historical subjects representing The Preservation of Capt. John Smith, by Pocahontas; Landing of the Pilgrims on Plymouth Rock; Penn's Treaty with the Indians; Conflict between Daniel Boone and the Indians; There are also specimens of sculpture of the heads of Columbus; La Salle; Sir Walter Raleigh and Cabot, by Causici and Capellano. On the outside of the east door, are also statues of Columbus; The Indian Woman, and two of Colossal size representing Peace and War, by Persico. There is also a group called Civilization. In the Park is Greenough's colossal marble statue of Washington, his right hand pointing towards heaven, and in the left holding a Roman Sword.

The new dome, now being fast completed, resembles the modern rather than the antique structures of this character; it is 220 feet from floor to ceiling, and from the Western grounds is about 400 feet high. A spiral staircase winds around between the interior and exterior, from the floor to the summit, and at various heights are colonnades, from which the visitor will have magnificent views.

The dome is decorated with pilasters, rich cornices and entablatures, springing up toward the sky; and crowning the pinnacle of this beautiful and grand piece of art is a bronze statue of freedom, 20 feet high, commenced by Crawford, and since his death completed by Clark Mills.

The new Senate Chamber is in the north wing of the Capitol, is 113 feet, 3 inches long, 80 feet, 7 inches wide, and 36 feet high. The ceiling is of cast iron, with large skylights,

ceiling are richly colored. There are panels and niches yet to be filled with paintings and statuary. The galleries seat about 1,200 persons. The Hall of Representatives is in the south wing, is 139 feet long, 93 wide, and 36 high. It is built on about the same general plan as the Senate Chamber. The decorations are rich, but darker color than the Senate. It is also to be adorned with paintings and statuary. Galleries seat 1,200 persons.

The Congressional Library

Is in the west front of the Capitol Building. The original library was collected in 1800, but was destroyed in 1814, during the war with England. It was afterwards replenished by the purchase of the splendid library belonging to Thomas Jefferson, by Congress, for \$23,000. In 1851 it contained 50,000 volumes, and by an accidental fire in that year, about 30,000 volumes were destroyed. The new rooms are fitted up with ornamental iron cases, and iron ceilings, the whole being perfectly fire-proof. Congress has made large appropriations, and many of the lost volumes have been replaced. Present number of volumes, 80,000. The public are privileged the use of the books in the library, while members of Congress only can take away books. The librarians are gen-tlemanly and obliging, and visitors can while away many a pleasant hour in these rooms.

The Supreme Court Room Is also in the Capitol Building

The Executive Mansion.

The President's mansion, or White House, as it is familiarly called, is on Pennsylvania Avenue, between 15th and 17th streets, and fronting Lafayette Square. It was erected in 1792, rebuilt after the war of 1812. It is built of free stone, and painted white. The lawns around, containing some twenty acres, drop gradually toward the Potomac river. This elegant but not imposing edifice is two stories high, 170 feet long, and 86 feet deep. On the north point, upon Pennsylvania Avenue, the building has a portico, with four Ionic columns, under which carriages pass. circular colounade of six Doric pillars adorns the Potomac front. In the centre of the lawn, across the avenue, on the north, is Clark Mills' bronze equestrian statue of General Jackson, erected in January, 1853. The artist has the honor of being the first to succeed in erecting a statue representing a steed poised upon its hird feet, with no other support. It is cast of cannon taken by Jackson, and cost \$50,000. Near the President's mansion, on the one side, are the very plain buildings of the Navy and the War Departments, and on the other side are those of the State and the Treasury Departments.

The Treasury Department

Is on 15th Street, between Pennsylvania having in the center of each, in color, the Avenue and President's Square. It is 457 feet arms of a State or Territory. The walls and in length, and built of granite. The front has

a colonnade 300 feet long, with 42 Ionic columns, and is really an imposing structure.

The Navy Department

Is directly west of the President's house, on 17th Street, near Pennsylvania Avenue. Has many national flags, and other trophies; portraits of naval heroes, medals, &c.

The War Department

Is also on 17th Street, near that of the Navy. It contains medals, trophies of war, &c.

The Patent Office

(Department of the Interior)

Occupies the square bounded by 7th and 9th and F and G, and when completed, will be one of the largest and most interesting of all the Government structures. Here the visitor may see the models of the countless machines which have grown out of the inventive Yankee brain.

The Post-office Department, (and City Post-office)

Is on the square, bounded by E and F, and 7th and 8th streets; is built of white marble, and is a handsome building. The entrance to the Department is on E Street, and to the City Post-office, on F Street.

The Smithsonian Institute

Is within the area of the New Park, west of the Capitol, and south of Pennsylvania Avenue. This noble institution was endowed by James Smithson, Esq., of England, "for the increase and diffusion of knowledge among men." The edifice is constructed of red sandstone, in the Norman or Romanesque style. Its length is 450 feet; its breadth, 140; and it has nine towers, from 75 to 150 feet high. It contains a lecture-room, capacious enough to hold 2,000 auditors; a museum of natural history, 200 feet in length; a superb laboratory; a library room, large enough for 100,000 volumes; a gallery for pictures and statuary, 120 feet in length.

There is a museum composed of the various curiosities and collections brought to it by the exploring expedition; a printing press belonging to Franklin; Washington's continental suit and other of his personal effects, as well as

those of Smithson.

Coast Survey Buildings

Are on New Jersey Avenue, near the Capitol. They consist of 4 old houses not looking much like public buildings. However, the work carried on within is complicated and of much interest; its supt. is Prof. A. D. Bache, whose reputation, as a man of science, is world-wide.

The City Hall,

The home and resort of City Fathers is on D st., at the head of $4\frac{1}{2}$ st. It is a large and handsome edifice, 200 feet in length.

The National Observatory

Is on the banks of the Potomac towards Georgetown. The site is a beautiful one, having a commanding view of the surrounding country. It occupies a high rank among the observatories of the world, there being but one—that in Russia—superior to it.

The Natl. Monument to Washington

Is on the wall. The base is to be a circular temple, 250 feet in diameter, and 100 feet high, upon which here is to be a shaft of 70 feet base and 500 feet high; the total elevation of the monument being 600 feet. The temple is to contain statues of Revolutionary heroes and relics of Washington. It is to be surrounded by a colonnade of thirty Doric pillars, with suitable entablature and balustrade. Each State contributes a block of native stone or other material, which is to be placed in the interior walls. The work on the monument stopped two or three years ago; and there is nothing to be seen as yet but a plain shaft about 150 feet high.

The Navy Yard,

On the Eastern Branch, about three-fourths of a mile southeast of the Capitol, has an area of 27 acres, enclosed by a substantial brick wall. Within this enclosure, besides houses for the officers, are shops and warehouses, two large ship-houses, and an armory, which, like the rest of the establishment, is kept in the finest order.

The Navy Magazine

Is a large brick structure, situated in the southeastern section of a plot of 70 acres, the property of the United States, on the Eastern Branch.

The Congressional or National Cemetery

Is about a mile east of the Capitol, near the Anacosta, or eastern branch. Its situation is high, and commands fine pictures of the surrounding country.

United States Conservatory

Is on the Reservation, near the canal and Penn. ave., and between 1st and 3d streets. It contains a collection of the finest Exotic plants in the country. Belongs to the government.

The Washington Arsenal

Is on the extreme end of Greenleafs Point (or the Island) commands an extensive view. The Potomac and Eastern Branch run by the arsenal shore. It is one of the principal Arsenals of construction in the United States, and contains much useful and ingenious machinery.

Georgetown.

Georgetown is so near as to be almost part and parcel of the Capitol. It is at the head of navigation on the Potomac, on high and broken ground. Many elegant mansions, the residences of some of the foreign ministers among them,

occupy the "Heights" of the city. Oak Hill Cemetery is a spot of much beauty. An important Catholic College, with both male and female schools, is located here.

The Great Falls of the Potomac,

A scene of remarkable interest, are 13 miles above Georgetown. The Little Falls are three miles away only.

Alexandria, Va.

Alexandria, Va., is upon the banks of the Potomac, seven miles below the Capital. It was once within the District of Columbia, but was retroceded to Virginia in 1846, with all the territory of that State which had been before a portion of the national ground. The population of Alexandria is about 12,000.

Bladensburg,

A small village in Maryland, on the eastern branch of the Potomac, 6 miles from the Capital, on the Baltimore and Washington Railway, is famous as the Congressional duelling ground.

Mount Vernon,

Sacred as the home and tomb of Washington, is upon the west bank of the Potomac, 15 miles below the Capital, and eight miles from Alexandria.

The old tomb, which is now fast going to decay, occupies a more picturesque situation than the present one, being upon an elevation in full view of the river. The new tomb into which the remains were removed in 1830, and subsequently placed within a marble sarcophagus, stands in a more retired situation, a short distance from the house. It consists of a plain but solid structure of brick, with an iron gate at its entrance, through the bars of which may be seen two sarcophagi of white marble, side by side, in which slumber in peaceful silence the "Father of his country" and his amiable consort

This sacred domain remained, since the death of Washington, in the possession of his descendants, until very lately, when it was purchased for the nation for the sum of \$200,000, raised by subscription, under the auspices of a society of patriotic ladies, who bravely organized themselves as the Ladies' Mount Vernon Association of the Union. Many thousand dollars of the fund came from the lectures and literary labors of the Hon. Edward Everett.

WAR.

Sketches of American Political Chronology.

War—civil war—to-day stalks through the brightest land the sun ever shone upon. America—half brother of the world—where those of every land find shelter and a home, is rent by discord. The sweet summer air is shivered by the fierce din of war. The soil that was won for freedom by the blood of our fathers, is now crimsoned by the blood of our brothers in

strife. Mighty armies are meeting in the shock of battle; mighty navies are riding our seas and rivers on bloody missions; along thousands of miles of river and sea-coast our armed vessels stand sentinels over rebel cities and gateways; mighty communities are visiting upon each other all the horrors of carnage. The Republic that had become a synonym of peace has become a synonym of war. The country that the whole world envied, has become the subject of universal wonder, pity and horror.

"But let no one think that because we are in the midst of war we are rushing on to ruin. Let no enemy of us and ours lay the flattering unction to his soul that we have seen the end of our course, and our greatness. THE REPUB-LIC "STILL LIVES," AND WILL LIVE TO BLESS AND GLADDEN MILLIONS YET UNBORN. It stands upon the threshold of a greater and brighter career. It is passing through, not the Dark Valley of the Shadow of Death, but the purifying fires of Discipline. The trial is severe; the flames leap and crackle about it, and bathe it in their fierce flood; but they can not hurt it. They may scorch the bark, but they can not touch the core of the Tree of Liberty: that will grow and flourish and give shelter to millions long after the generation that now struts its brief hour shall have become dust. Men die, but principles live forever.

Following will be found a brief synopsis of American wars in the order in which they occurred.

French War, 1754.

The French war with the thirteen English-American colonies commenced in 1754, and lasted nine years. The taking of Fort Niagara and Quebec in 1759, virtually closed the war—peace was formally concluded in 1763.

The American Revolution.

The first blood shed was in Lexington, Mass., on the 19th of April, 1775, by the British soldiers from Boston, who were ordered to fire on the militia. (On the same day and month, 1861, the Federal troops while passing through Baltimore, to defend Washington, were fired upon by the secession mob, and several killed.) There were twenty-four main battles fought, commencing in April, 1775, and ending with the battle of Yorktown, Oct. 19, 1781. We had fifteen victories and nine defeats. There were engaged 231,791 Continental soldiers. In December, 1783, the treaty of peace was signed, and the PATRIOT army disbanded.

War with the North-western Indians.

Two chief battles, one Nov. 4, 1791, and Aug. 30, 1794.

War with France, 1796-8.

War was declared against France. No battles were fought on land, but two extremely bloody ones took place on the ocean. In 1800, Bonaparte being in authority, peace was soon restored.

War with Tripoli, 1801.

War was declared against those states for piracy on, and exacting duties from our mer-chant vessels. Peace was restored in 1805.

Burr's Conspiracy (so called), 1806.

The conspiracy of Aaron Burr was first discovered in September, 1806. In May, 1807, he was arraigned at Richmond, Va, on a charge of treason. The affair was settled.

War with Western Indians, 1811.

General Harrison defeated the Indians under Tecumseh, Dec. 11, 1811. Great loss on both

War with England, 1812.

June 16, 1812, war was declared against Great Britain. There were thirty-four main battles by land and sea. In twenty-five we were victorious, and defeated in nine. New Orleans was the last fight, in which the British forces lost 2,500, and the Americans, seven killed and six wounded. Peace was ratified by England, December, 1814, and by the United States, February, 1815.

Black Hawk War

Was commenced August, 1832. Gen. Atkinson captured Red Bird, and his successor, Difficulties ended in same Black Hawk. year.

Conspiracy of 1832.

South Carolina opposed the tariff of '28. Georgia, Virginia and Alabama sided with her in nullification. The Governor of South Carolina prepared to enforce the resistance. Calhoun, Vice-President of the United States, resigned. But Gen. Jackson declared nullification to be revolution; that the Union must be preserved, and he prepared to enforce his decrees by arms. The prompt decision of the President brought the nullifiers to submission, and the Union was saved.

Texas War with Mexico.

First battle fought October, 1835. main battles succeeded. Ended in April, 1836. Four victories and two defeats.

War with Florida Indians.

First battle fought, December, 1835. Last one in December, 1836. Three victories and one defeat.

War with Mexico.

First battle, May 3, 1846. Last one at Chepultepec, September, 1847. Fifteen main battles. In all we were victorious. Massachusetts, New York, New Jersey, Pennsylvania, Ohio, Indiana and Illinois, furnished, in the course of that war, 22,573 men. Of this force the total loss from disease was 2,931 men, less than one-eighth of the whole. Nine slave states—Virginia, North Carolina, South Carolina, Georgia, Alabama, Mississippi, Louisiana, Tennessee and Kentucky-furnished 22,899

The loss from this force by disease and death caused by disease, was 4,315, or more than one-fifth.

Rebellion of 1861.

"The Presidential election of 1860 approached. The Democratic convention was held at Charleston. The ultra Southerners took an extreme position upon the slavery question. The moterate Democrats of the North could not sustain them. The party split, and the ultraists nominated Breckenridge, and the other faction nominated Douglas, as candidates for the Presidency. The Republican convention nominated Lincoln of Illinois; and the constitutional Union men, Bell of Tennessee. The campaign was exciting, and hard fought. In the result, Lincoln had 180, Douglas 12, Bell 39, and Breckenridge 72 of the votes of the Electoral College. The Republican candidate was declared elected President of the United States. The South, forgetting the duty of the minority to yield; and, aided by those in the confidence of the government, commenced plotting for rebellion and civil war."

The following states seceded from the Union to form a Confederacy:

1860, Dec., 20, South Carolina. 1861, Jan. 10, Mississippi, Florida; Jan. 11, Alabama; Jan. 19, Georgia; Jan. 25, Louisiana; Feb. 1, Texas; April 25, Virginia; May 6, Arkansas, Tennessee; May 21, North Carolina.

Feb. 9. The Southern congress met at Montgomery, Ala, and elected Jefferson Davis of Mississippi, president of the Southern Confederacy, and Alexander H. Stevens of Georgia, vice-president. The Constitution of the United States, with amendments, was adopted. The president was inaugurated on the 18th.

22. Abraham Lincoln, President elect of the United States, broke up the programme of his route to Washington, and left Harrisburg, Pa., secretly in a special train for the Federal capital, assurances having been given him that an attempt would be made to assassinate him on his way through Maryland. On the 4th of March he was duly inaugurated. The ceremonies were attended with great pomp. General Scott had upwards of 600 troops stationed about the capitol, in anticipation of an outbreak. No disturbance took place.

April 11, Fort Sumter in Charleston harbor, was demanded by the South to surrender. Major Anderson refused. At 4 A. M. on the 12th, nineteen batteries opened fire upon him -fighting on both sides all day. On the 13th, after an attack of thirty-three hours, the frame buildings in the fort took fire from the hot shot, from Fort Moultrie. Major Anderson was compelled to surrender, conditioning however, that himself and men be allowed to depart, taking their side arms, at their own time, in their own way, and saluting the flag when taking it down, which they did with fifty guns. Two men were killed in firing the last gun in the salute (the only ones on our side. were buried at the foot of the flag-staff.) The

men marched out playing Yankee Doodle, &c., and sailed for New York. Thus South Carolina initiated the rebellion, with 5,000 men and nineteen batteries attacking a garrison of sixty

half starved men.

April 15. The President called for 75,000 volunteers to maintain the laws of the United States. 17. The 6th Massachusetts regiment was the first to respond. On their way through Baltimore on the 19th, they were attacked by a mob, who killed three soldiers and wounded eight, and lost eleven killed and four wounded. The President issued a proclamation declaring a blockade of the ports of the seceded states.

May. 3. The President called for 42,000 additional troops. 24. General advance of Union

troops across the Potomac.

July 5. President's Message - calls for

400,000 men.

Sept. 12. John A. Washington (descendant of Gen. Washington), former proprietor of Mount Vernon, and at the time of his death, colonel in the rebel service, was killed while reconnoitering.

It was thought that this war would carry disaster and ruin to every branch of business; on the contrary, it opened a universal prosperity and gave a stimulus to every department of

trade.

The colossal magnitude which the rebellion assumed, made repeated calls for volunteers necessary, swelling the ranks to a million. Last July a draft took place in twelve states, those drafted had the privilege of paying \$300 or furnishing a substitute. It brought 50,000 conscripts and \$10,000,000. What a happy day when the opening soliloquy of Richard III can with truth be repeated by every lip - the day when "peace shall be proclaimed through-out the land." But even peace will never more bring joy to the hearts bowed down with grief for the loved and lost. When the armies are marching home, proudly keeping step to the drum, little children will look in vain for the parental greeting; mothers will gaze (ah! how hopelessly) upon every form for that of her dear boy, and wives with their hearts full of love, will stand on tip-toe almost breathless with hope, and joy, and fear, to catch the first fond glance of him whose long absence she has so nobly borne; some will be gratified - many will look and wait in vain; but over the graves of the absent heroes the grass will grow greener than on any other part of the field.

May we all become a united and happy people again, and may each state once more become a "bright particular star" in the coronet of this unequalled nation; and in times of peace or war, in times of trouble or prosperity,

ever defend

"That banner with the proud device, Excelsior."

Havoc of War.

The war of 1756, waged in the heart of Europe, left, in one instance, no less than twenty contiguous villages without a single

man or beast. The thirty years' war, in the seventeenth century, reduced the population of Germany from 12,000,000 to 3,000,000—three-fourths; and that of Wirtemburg from 500,000 to 48,000—more than nine-tenths! Thirty thousand villages were destroyed; in many others the population entirely died out; and in districts once studded with towns and cities, there sprang up immense forests.

Look at the havoc of sieges; in that of Londonderry 12,000 soldiers, besides a vast number of inhabitants; in that of Paris, in the sixteenth century, 30,000 victims of mere hunger; in that of Malplaquet, 34,000 soldiers alone; in that of Ismail, 40,000; of Vienna, 70,000; of Ostend, 120,000; of Mexico, 150,000; of Acre, 300,000; of Carthage, 700,000; of Jeru-

salem, 1,000.000!

Of the French army in the Crimea, 7,500 men were slain in battle, 50,000 perished by disease, and 65,000 more were discharged as invalids. Of nearly 94,000 English soldiers in the Crimea, 4,419 were slain in battle or died of wounds; but 16,298 died of disease at the seat of war, and nearly 13,000 were sent home

Mark the slaughter of single battles. At Lepanto, 25,000; at Austerlitz, 30,000; at Eylau, 60,000; at Waterloo and Quatre Bras, one engagement in fact, 100,000; at Borodino, at Fontenoy, 100,000; at Arbela, 300,000; at Chalons, 300,000 of Attila's army alone; 400,000 Usipetes slain by Julius Cæsar in one battle, and 430,000 Germans in another.

Take only two cases. The army of Xerxes, says Dr. Dick, must have amounted to 5,283, 320; and if the attendants were only one-third as great as common at the present time in eastern countries, the sum total must have reached nearly 6,000,000. Yet in one year, this vast multitude was reduced, though not entirely by death, to 300,000 fighting men; and of these only 8,000 escaped destruction. Jenghiz Kahn, the terrible ravager of Asia in the thirteenth century, shot 90,000 on the plains of Nessa, and massacred 200,000 at the storming of Charaism. In the Herat district, he butchered 1,600,000, and in two cities, with the dependencies, 1,700,000. During the last twenty-seven years of his long reign, he is said to have massacred more than half a million every year; and, in the first fourteen years, he is supposed, by Chinese history, to have destroyed not less than 18,000,000; a sum total of 32,000,000 in forty-one years!

In any view, what a fell destroyer is war! Napoleon's war sacrificed some 6,000,000; and all the wars consequent on the French revolution, some nine or ten millions. The Spaniards are said to have destroyed, in forty-two years, more than 12,000,000 of American Indians. Grecian wars sacrificed 15,000,000; Jewish wars, 25,000,000; the wars of the twelve Cæsars, 30,000,000; in all the wars of the Romans, before Julius Cæsar, 60,000,000; the wars of the Roman empire, of the Saracens and the Turks, 60,000,000 each; those of the Tartars, 80,000,000; those of Africa, 100,000,000!

"If we take into consideration," says the learned Dr Dick, "the number not only of those who have fallen in battle, but of those who have perished through the natural consequences of war, it will not, perhaps, be overrating the destruction of human life, if we were to affirm that one-tenth of the human race has no less than 35,000,000,000.

been desteoyed by the ravages of war, and, according to this estimate, more than 14,000,-000,000 of human beings have been slaughtered in war since the beginning of the world." Edmund Burke went still further and reckoned the sum total of its ravages, from the first, at

CABINET RECORD

From the Origin of the U.S. Government to the Present Time.

In 1789 George Washington was elected the first President under the Constitution. sequence of delays incident to the first organization of the government, he was not inaugurated on the 4th of March; that event did not take place until the 30th of April.

First Administration.

George Washington, Va., Ap'l 30, 1789, Prest. John Adams, Mass., do., Vice-President. Thos. Jefferson, Va., Sep. 26, 1789, Sec of Sta. Edm'd Randolph, Va., Jan. 2, 1794, do.

CITY POST-OFFICE.

Located on F street north, cor. 7th west.

Office open from 8 A. M. to 8:30 P. M.;

Sundays 8 to 10 A. M.

New Postal Law.

One-half ounce is the standard single rate for letter postage. The three cent postage rate covers letters to California and every other State and Territory in the Union.

All "drop letters" shall be hereafter

charged two cents per half ounce.

If any matter on which the postage is required to be prepaid at the mailing office shall reach its destination without such pre-payment in full, double the prepaid rates shall be charged and collected on delivery, except soldiers' and naval letters.

Three circulars may pass in one envelope at one rate of two cents — one rate to be added for each additional three, or less. The envelope may have a card printed or impressed

upon it.

Packages of transient newspapers or magazines, four ounces or fraction thereof in weight, two cents — to be prepaid by stamps.

Pamphlets, proof-sheets, maps, blanks, samples, paper, photographs, seeds, scions, &c., two cents for each four ounces or fraction thereof—to be prepaid.

Books double pamphlet rates.

Postage on letters from the following places must be paid in coin or its equivalent: Great Britain, Ireland, France, Bremen, Hamburg, Prussia and Belgium.

Postmaster — Sayles J. Bowen. Chief clerk — Lambert Tree. Financial clerk — A. C. Richards.

Assistant chief clerk — Nathan H. Barrett. Clerks.—R. Lay, W. B. Jones, T. L. Noyes, F. J. Bartlett, J. Goodrich, P. Sweeney, James Clephane, Geo. Emmerich, S. V. Noyes, J. A. Rice, J. L. Smith, H. LIBRARIES.

LIBRARY OF CONGRESS.—Located in the Capitol. The present collection was founded in 1815, by the purchase of about 7,000 volumes from ex-President Jefferson. The Library is recruited by regular annual appropriations made by Congress, which average about \$7 000 per annum. In the fire of December, 1851, about two-thirds of the Library of Congress was consumed. Subsequent additions, however, have more than made good the loss, the present collection numbering over 80,000 volumes, ihe larger portion of which are works of permanent interest and value.

No books can be drawn from the Library of Congress except by certain official persons, designated by statute, who are as follows:
President and Vice-President of the U.S.;

Senators and Representatives of Congress; Judges of the Supreme Court; Judges of the Court of Claims; Members of the Cabinet; Representatives of Foreign Governments; Secretary of the Senate; Clerk of House of Representatives; Solicitor of the Treasury; Agent of the Library Committee; Ex-Presidents of the United States; Chaplains of the two Houses of Congress. The use of books, within the Library, is free to all.

The Library is open every day (Sundays excepted) during the sessions of Congress, from 9 a. m., to the hour of adjournment. In the recess of Congress it is open every Tuesday, Thursday, and Saturday, between the hours of

9 a. m., and 3 p. m. SMITHSONIAN INSTITUTION LIBRARY.—This Library now contains upwards of 40,000 volumes obtained by purchase, donation and exchange. Besides books, the library contains engravings, maps, music, and other articles connected with the art of printing, but it is specially devoted to scientific works, and the Transactions of Societies in every part of the world. The Library is open to the public daily (Sundays excepted), from 10 a. m., to 4 p. m.

Washington Library.—Chartered by Congress in 1814—Rooms on 11th west, between C north and Pennsylvania ave. Contains about 10,000 volumes. Shares, \$6. Annual tax, \$3. Open every day, from 9 to 3. President, James F. Haliday; Secretary, W. Q.

Young Men's Christian Association-500, 7th west.—The Library contains 2,600 volumes; the reading room is provided with the leading reviews and newspapers, and is kept open from 9 a m., to 10 p. m., and here members of other kindred associations, temporarily residing in, and others visiting the city, are cordially welcome.

Annual subscription, \$2 in advance.

LIBRARY ASSOCIATION, I.O.O. F .- This Association holds quarterly meetings on the second Tuesday in January, April, July, and October, in the Library room, Odd Fellows Hall, 7th street west. Officers—Wm. R. McLean, President; Joseph H. Daniel, Vice-President; Eli Garrett, Secretary; George W Calvert, Treasurer; George W. McLean, Librarian. Directors— Jackson Edmonston, Wm. Wall, Parker H. Sweet, D. D. Clark, and F. Neidfelt.

THE SOLDIERS' FREE LIBRARY AND READING Room, of the City of Washington, (D. C.) Judiciary Square, corner 5th and E. streets, Philo T. Tower, Librarian. Has been established for the purpose of supplying Reading Matter to Soldiers It was erected on land granted by a special Act of Congress to Mr. John A. Fowle and Miss Elida B. Rumsey, for

that purpose.

Soldiers are here supplied with Books from the Library with the privilege of keeping them Ten Days; they can also obtain Testaments, Pamphlets, Newspapers, Writing Paper, Envelopes, Religious Reading Matter, and Hospital Stores without charge.

The Reading Room (supplied with Magazines and Newspapers) is open all day; the Library, from 10 to 12, a. m., and 2 to 4 p. m. Any Soldier, on signing the Rules and Regulations, will be entitled to all the privileges free of charge.

MISCELLANEOUS ASSOCIA-TIONS AND SOCIETIES.

B. F. STEVENS, SEC.

A Policy of Life Insurance is the cheapest and safest mode of making a certain provision for one's family. Beajamin Franklin.

—Beginnin Francis.

A Policy of Life Assurance is always an evidence of prudent forethought; no man with a dependent family is free from reproach if not Assured.—Lord Lyndhurst.

There is nothing in the commercial world which approaches, even remotely, to the security of a well-established and prudently-managed Life Insurance Company.—Professor De Morgan.

Documents showing the benefits of Life Insurance with the advantages of the Mutual plan, and the superior position and marked success of this Co., and explaining the different kinds of Policies with their methods of payment, may be obtained, free of expense, upon application either personally or by mail, to

JOHN HOPPER, Agent,

110 BROADWAY, Cor. Pine St., New York.

Parties at a distance may insure from Blanks, supplied and forwarded free of expense,

The principles of Life Insurance are now so well established, that they are no longer matters

of experiment, and its advantages are beyond dispute.

The great and special advantage is the securing of wife and children against want and misery after the death of the husband and father. Every one acknowledges the wisdom and prudence of providing for a family against the adversities of fortune, or the accidents of life, and it is the moral, social, and religious duty of every one, not to abandon those dependent upon him to the cold charities of the world, and liable to the temptations and sufferings of poverty, when deprived of his protection and support. The late Lord Chancellor of England declared, that "no man with a dependent family is free from reproach if his life is not insured." The man who neglects to insure his house is condemned for imprudence. How much more improvident is he who refuses to insure his life? Every house may not be burned, but every man must die. Bishop Hawkes wisely declares, that "Life Insurance is not only a humane, but almost a Christian institution," for the Apostle says: "If a man provide not for his own, and especially for those of his own house, he hath denied the faith, and is worse than an infidel."

especially for those of his own house, he hath denied the faith, and is worse than an infidel."

This important duty of every head of a family may be easily and securely performed by obtaining a Policy of Life Insurance. A very small daily saving will accomplish this purpose. Five cents a day, commencing at the age of twenty-one, will insure one thousand dollars at death, whether immediate or remote, together with all the profits which may accumulate on the policy; and six cents a day, at twenty-eight years of age, will accomplish the same object. And by the judicious laws of Massachusetts and New York, policies issued for the benefit of widows and orphans are protected from the husband's creditors.

Can it be that any father, husband, or man, is unwilling to make a little sacrifice of daily comforts, in most cases of what would be unnecessary expenses, to protect those most near and dear to him from suffering and want after his death?

dear to him from suffering and want after his death?

There are many other advantageous uses of Life Iusurance, besides the security of a family against want. Creditors can insure the lives of their debtors as a security for their claims. A man with incumbrances upon his property may insure to the amount of them to secure their man with incumbrances upon his property may insure to the amount of them to secure their ready payment at his decease. A young man may borrow money to complete his education, or may obtain credit for a stock of goods, or tools, or a farm, by insuring his life and assigning the policy as contingent security. A parish may relieve their clergyman from anxious care by raising a small sum to insure his life and provide for his family. In short, Life Insurance is applicable to all purposes of raising money on loans, where only personal security can be offered; and, generally, as affording means of certain indemnity against any pecuniary loss, claim, or inconvenience whatsoever, to which one individual may become subject, by reason of the death of another.

The moral another.

The moral and social influence of Life Insurance is no slight benefit both to the individual and to the community. It develops the amiable and generous traits of character, accustoms a man to think for others, induces habits of industry, economy and accumulation, and by relieving the mind from anxiety and over-exertion, promotes health and longevity. A systematic adoption of Life Insurance, by the people of any country, would do more to eradicate pauperism and crime than all the combined wisdom of its legislators; so that a well-founded, well-conducted institution of this description is a subject of public interest, as its beneficial effects are at least equal to those of any charitable, publishing institution; and these effects are produced. to those of any charitable, philanthropical public institution; and these effects are produced without any donation, sacrifice, or act of beneficence by the public or by individuals, being the natural and easy results of the spontaneous thrift, prudence, and forecast of individuals in conducting their own concerns.

SECURITY OF LIFE INSURANCE.

Life Insurance Companies are the most stable and permanent institutions known among men. The experience of the commercial world can point to no such permanency, nor do any class of institutions compare with Life Companies for uniformity, safety, and reliability. The insured cannot invest their funds in a more sure and profitable manner; for Life Insurance is simply setting aside and investing a yearly sum, with the certainty of a safe return with accumulations; whereas other investments, with a profitable and sure return, are not so easily found, and often end in an entire loss.

An investment in a policy of Life Insurance is far preferable to deposits in a Savings Bank. An Insurance Company accomplishes all that is done by a Savings Bank, and much besides, combining all the advantages of the latter with an indemnity against risks. Like the Savings Bank, it takes care of the depositor's money, and it virtually allows him interest upon his deposits: but it does more. What is of higher importance to the depositor, the Company

engages, in consideration of a certain sum of money paid to it annually, during the life of the depositor, to pay a much larger sum to his family upon his decease.

There are three reasons why a Life Insurance policy is a wiser investment than a deposit in a Savings Bank: 1. Money in a Savings Bank, being entirely at the will of depositors, is too easily drawn out to gratify some passing desire, and there is no strong motive to compel a regueasily drawn out to gratify some passing desire, and there is no strong motive to compel a regular deposit. How many persons have commenced an account with a Savings Bank, and continued for some time with a laudable perseverance, but at last have been tempted to withdraw, and aever had sufficient confidence to commence again! In Life Institutions, a man, after mature deliberation, binds himself to make a deposit of a specified sum at a specified time; knowing this, he provides for it, and we can safely say that in a majority of cases the money saved to deposit in a Life Institution, would not be saved at all, had they not insured. 2. Money in a Savings Bank is exposed to the demand of creditors, while an Insurance policy is not liable for a man's debt, being held by a special law of the State, as a fund for the benefit of his family; and thus, in times of pecuniary disaster, to which every man is more or less liable, it often becomes a means of sunnort when everything else is gone—cheering with ease and competence the dea means of support when everything else is gone—cheering with ease and competence the declining years of those who, without its aid, would have been left to all the miseries of poverty and old age. 3. Life is uncertain, while death is certain; and a Savings Bank makes provision only for life. The average length of human life is only thirty-three years. Of 500 persons, only one lives eighty years, and of 100 only six live sixty-five years. Those who can cheat them-

selves into the belief that they run no risk of dying, will not, of course, insure. No one however, need consult books to learn lessons of mortality. 'Tis the burthen of pulpit eloquence; the lesson of the graveyard; and the teaching of every day's experience. The uncertainty of life being admitted, it will follow that accumulation upon the Savings Bank principle, does not

life being admitted, it will follow that accumulation upon the Savings Bank principle, does not meet the requirements of the case.

To illustrate: suppose a husband and father, thirty-three years old, wishes to leave his family the sum of \$2,000, and for that purpose deposits annually \$50 in some Savings institution. In the course of thirty or forty years he will thus accumulate the required sum. But what guarantee has he that he will live ten years, or even one year? He has none, and, of course, no security for provision for his family. But, if he pays \$50 as an annual premium for a policy of Life Insurance, he will be sure of leaving \$2,000 to his family whenever he dies, in six months or twenty years! Thus, while all other means are fluctuating and uncertain, and riches often "fly away," a Life Insurance policy (if from a reliable company) is certain, and becomes a patrimony JUST AT THE TIME IT IS MOST NEEDED.

The question is no longer, Shall I get my Life Insured? but rather, Where can I Insure IT to the Best advantage?

IT TO THE BEST ADVANTAGE?

In answering this question it will be necessary to explain briefly the

DIFFERENT KINDS OF LIFE INSURANCE COMPANIES.

They are all based upon the same fundamental principles, but are divided into classes, according to the different plans of their organization and the different methods of conducting their business. They are either Stock, Mixed, or Mutual Companies.

Joint Stock Companies issue at fixed rates, the profits being WHOLLY divided among the proprietors, and the enormous dividends thence divided have, in some cases, raised the value

proprietors, and the enormous dividends thence divided have, in some cases, raised the value of the stock to seven hundred per cent. upon the amount paid in.

Mixed Companies are also Joint Stock Companies with proprietary bodies, but the assured are allowed to participate to a certain extent with the proprietors in the profits of the business.

Mutual Companies are owned and managed exclusively by policy-holders, all of vehom have their proportionate shave in the surplus accruing from the business.

The Mutual Company is clearly the most perfect in principle, and experience has fully tested and placed beyond a doubt the perfect security of the system. No Mutual Company, when once well established, has ever met with disaster on account of the mutual principle; but, on the other hand, they have rapidly accumulated funds, reaching sometimes in amount to millions of dollars. In Mutual Companies, too, the assured have entire control of, the funds; there is "universal suffrage," and the form of government is essentially "democratic." A Mutual Company divides the vehole surplus among the insured, after deducting only the actual cost to the Company of carrying on the business, which is not the case with the first class mentioned, and only in a degree with the Mixed companies. This plan of operation insures the applicant at the lowest possible premium, for all that is over the sum required to insure him safely, is returned in lowest possible premium, for all that is over the sum required to insure him safely, is returned in dividends, which is not the case with the Stock companies, and only partially so with the Mixed companies, the proprietary body in the latter having first to receive its share of the surplus before a dividend can be declared to the insured.

The Governor of Massachusetts has recently vetoed a bill to incorporate a Life Insurance Company, because, among other reasons, it was not a Mutual company. He says: "Purely Mutual Life Insurance Companies have been proved by experience to be the safest and best for the insured."

A PURELY MUTUAL COMPANY IS, THEN, THE ONE IN WHICH TO INSURE TO THE GREATEST ADVANTAGE.

SUPERIORITY OF THE NEW ENGLAND LIFE INS. CO.

It is a purely Mutual Company, and has made three distributions of surplus funds (1848, 1853, and 1858,) in *cash*, amounting to over \$600,000. It now has an invested fund of \$2,550,000, to pay losses, and a surplus of \$1,250,000; so that it could reinsure for \$1,250,000, and divide \$1,250,000.

The New England Mutual Life Insurance Company do not pay their dividends in scrip, but always in CASH, At the close of every five years the Company, after paying the expenses of the business, reserving a sufficient sum to reinsure all risks, and cover all possible contingencies, divides the surplus proportionately among the assured. By this plan, there is no accumulating scrip, or possible liability to guard against, and the rates of premium are materially lessened by the cash dividends, the insured reaping the immediate rather than the prospective advantages of the mutual plan. Some Companies are compelled by their charters to credit their distributions on the notices in the form of a hours, navable only when a loss takes place, thus creating an on the policies in the form of a bonus, payable only when a loss takes place, thus creating an immense and unnecessary capital, and depriving the members, in case of non-payment of premium, of all right to the bonus. In this Company, the distributions are a source of pecuniary relief in paying future premiums, and in times of great financial distress, are sensibly felt. In no event does the bonus (if a member choose so to apply his distribution) become forfeited. The cash distribution in 1858 amounted to \$335,000.

Its standing and economy are unequaled. The Insurance Commissioners of Massachusetts, in their last report to the Legislature, compare the standing and the economy of the eighteen Life Insurance Companies which issue policies in that State comparing the principal conver-

Life Insurance Companies which issue policies in that State, comprising the principal companies in the country; and they place the New England Company first in standing, i. c. in its ratio of value to liability, and first in economy. This Company's expenses are only 8 per cent. of the receipts, while those of the others average more than 11 per cent.! This is the oldest Mutual Company in the country, and, for that reason, must be the safest and most economical.

Its directors are well known to community as men of integrity, sagacity, and experience in business; and every year the affairs of the Company are thoroughly investigated by a body of Commissioners chosen by the State of Massachusetts, for that purpose; and a full and complete statement of the operations of the Company, with its assets and liabilities, is made to the Legislatures of Massachusetts and New York, and a report is made to the assured, of the condition of the Company. Every five years, at the time of declaring the dividends, the business

is, as it were, closed, so that its actual position and solvency are made manifest at that time. This guards the assured against any possible loss from inefficiency on the part of the Company, and is a sure guarantee as regards the future.

The New England Mutual Life Insurance Company has deposited with the Comptroller

of the State of New York, \$100,000 for the security of its policy-holders in this State.

A company in which so shrewd a financier as the late Abbort Lawrence, and so profound a lawyer as the late Rufus Choate, insured their lives to the largest possible amount, needs no other voucher for its economy, stability, and perfect security.

TERMS OF PAYMENT.

The terms of payment of the premium in the plan adopted by the New England Life Insurance Company, while ignoring entirely all uncertainty arising from the credit system, are peculiarly advantageous to the assured.

Presenting actualizations to the assistent.

Presenting may be paid quarterly, semi-annually, or annually; or one-half of the amount of five premiums may lie over on notes for a term of years, on whole life policies, interest being charged at the rate of six per cent. per annum, on the deferred portions. Premiums for the whole life may also be settled in ten annual payments, or in a single payment.

This is not insuring on credit; for the Company gets pay, from time to time, previously to running the risk—the interest on the note being taken into the account. The notes, or any part of them, will be demandable after five years from the date of the first one, on notice of ninety.

of them, will be demandable after five years from the date of the first one, on notice of ninety days, so that the Company may have command of their funds, should the same be necessary; but it is not supposed that such notes will ever need to be paid. There can be hardly a doubt

that the principal may remain outstanding so long as the assured wishes.

Five annual life premiums being double the amount of the cash premium required for an insurance for the term of five years, it follows that the policy is adequate collateral security for a loan to the amount of one-half of the life premium. The Company, by this rule, never insures upon the personal credit of any member, its loans being restricted to those policies only which have a pecuniary value. The Company also aids those members who have paid several life premiums in cash, by affording them a credit in times of pecuniary distress, for subsequent premiums, to an amount equal to what would be paid them on surrender of the policy. premiums, to an amount equal to what would be paid them on surrender of the policy.

In this Company a person cannot forfeit a policy until its value is worked out in insurance.

For example, if a person pays four life premiums in cash, this will insure him seven or eight years, or about three years after his four have expired, if he is unable, from any cause, to pay

the annual premiums.

Insurance may be effected for one year, a term of years, or for life.

Annexed are the tables of premiums for insurance of \$1,000 for one year, for seven years, and for life; also the amount in ten annual premiums, and in one payment.

SURRENDER OF POLICIES.

It sometimes happens that the motive for making insurance, ceases before the policy has expired. Instances will also occasionally occur of persons being disappointed of the means of paying the premium, and so being liable to forfeit their policies. In such case, the Company consents to a surrender of the policy upon fair terms, if application is made for that purpose before

All over and above the actual cost will be returned of the premiums paid.

Now is the time to effect an insurance! As a man grows older, the rates of premium are higher, and his health is liable to fail. Life is uncertain, and delays are dangerous!

TABLE OF PREMIUMS FOR INSURANCE OF \$1,000.

GIBSON BROS.

PRINTERS

between 10th Janie Avenue, Over 271 and 273

(Schneider's Building.)

We are prepared to execute every description of

and Ornamental Printing:

BILL HEADINGS, BLANK RECEIPTS,

BILLS OF FARE.

BILLS OF LADING, RAILROAD TICKETS. ENVELOPES. NOTE HEADINGS,

HAND-BILLS.

PROGRAMMES,

CLOTH TAGS,

CHECKS.

NOTES. DEEDS. LABELS, CERTIFICATES,

DRAFTS, MORTGAGES, CIRCULARS, WRAPPERS,

SHOW CARDS, INVITATIONS, &c., &c., &c.

MANIFESTS,

Printing Presses.

Our Presses have been manufactured expressly for us, by the best manufacturers in the world, at a great expense, with all the latest improvements.

HOE'S LARGE CYLINDER JOB PRESS

Unequalled for the excellence of its work and rapidity, being capable of working CIRCULARS, HAND-BILLS, PROGRAMMES, &c., at the rate of 1,500 impressions per hour.

Gordon's Circular, Bill Head, and Card Presses,

Machines which, by the nicety of their operations, and the excellence of their work, are undoubtedly the best ever invented for printing the finer descriptions of CIRCULARS, LABELS, CARDS, &C.

WASHINGTON HAND PRESS.

Fitted up with all the late and most approved contrivances for doing fine work in Colors, Gold, Silver, and other Bronzes, Flock, Crystal, &c.

Paper and Card Cutting Machines,

And all the appliances of a first-class

BOOK AND JOB PRINTING ESTABLISHMENT.

OVER.

GIBSON BROS.

With the Presses, Machinery, &c., mentioned on the preceding page, can afford to do work, in the best style, as cheap as it ought to be done by any one who expects to make a living at the business. We are prepared to print

Books, Pamphlets, Reports, Catalogues, & c.

At short notice, having large fonts of

BEAUTIFUL SCOTCH FACE TYPE,

Of various sizes, which has been carefully selected with especial reference to the execution of BOOK PRINTING.

Visiting Hards

Executed with taste, and nearly equal to fine engraving, at very moderate prices.

Store Bills,

For City and Country Merchants, printed in the most attractive style, either in

BLACK OR COLORED INKS.

FANCY SHOW CARDS,

In various colors-Gold, Silver, Bronze, Flock, Crystal, &c.

A Word of Remark.

Eschewing delusive of pompous parade about cheapness, we seek to make it the interest of the business community to have their Printing done at our establishment, rather than by lower priced or so called "cheap" workmen. Whatever we do, our aim is to do it thoroughly, that it may be a credit to our shill and taste, and a satisfaction to our customers. Our charges are regulated in strict accordance with the quality and quantity of the work desired, which experience has demonstrated to be just, equitable, and essential to the honest and successful prosecution of our business.

PROPRIETORS OF THE CELEBRATED

GOLDEN BITTERS.

PRINCIPAL DEPOT,

8 & 10 Ferry and 11 & 13 Water Sts., HUDSON, N. Y.

CENTRAL DEPOT, AMERICAN EXPRESS BUILDING,

55 Hudson Street,

NEW YORK.

THE BEST TONIC IN THE WORLD.

INVIGORATING AND STRENGTHENING.

Composed in part of the purest Bitters found in the Vegetable Kingdom, preserved in Jamaica Rum.

Orders addressed as above, or to Box 2,405, N. Y. Post Office, will be promptly attended to.

[SEE OVER]

HUBBEL & CO.'S

CELEBRIED GOLDEN BITTERS.

THE BEST TONIC IN THE WORLD.

By Tonics are understood those substances the operation of which is to give vigor and strength to the system. They are not to be considered as operating by any change they produce in the state of the solids, but they act upon the living principle; and, so far as their action is understood, are stimulants of great power and permanent in their operations. The ingredients of the justly celebrated

GOLDEN BITTERS

are recommended in all cases requiring Stimulants or Tonics, and are composed of the Purest Bit-ters in the Vegetable Kingdom, and all preserved in Jamaica Rum, the superior medicinal qualities of which are widely celebrated and universally known.

The Golden Bitters as a Beverage are unequalled—they are pleasant to the palate,

and impart a sweet odor to the breath.

They Invigorate, Strengthen and create a healthy Appetite. They will alleviate the pangs of Dyspersia, and overcome the effect of Dissipation; and, for general Feebleness and Languor, they are considered to be the most reliable remedy of the present age.

In Families they are almost an indispensable article. They may be taken by the Old and Young—Male and Female, without regard to diet or time of day.

LADIES

We particularly recommend them, and especially for those suffering from DYSPEPSIA, DEBILITY, WEAK-NESS and PROSTRATION.

THIS TONIC IS NO HUMBUC.

But is in fact the best in the World.

The Golden Bitters are mild in their action upon the system, and increase gradually the force of the circulation—promote the action of the Digestive Organs and counteract the bad effects of a change of water or diet. To persons of sedentary employment, who, for want of suf-

ficient exercise, become debilitated and generally weak, will find amost immediate aid by their use.

The Golden Bitters are put up in cases of One Dozen Quarts each, and for sale by Druggists, Grocers, Hotels and Restaurants throughout the United States.

Opposite General Post-Office, between E and F.,

And 74 LEXINGTON STREET, BALTIMORE, Md.

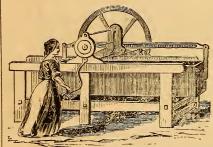

Electricity applied in all known forms for the Cure of all ACUTE and CHRONIC DISEASES. City references, and certificates of cures given to any one calling at my office.

The Dr.'s wife always present to assist in treating Ladies.

ESTABLISHED 1884.

Important to Hotels, Laundries, Boarding Schools, Public Institutions and Private Families.

Improved Horizontal Mangles

These Mangles are labor-saving machines, and are invaluable in hotels, laundries or private families, as they entirely supersede the use of ioning, smoothing table linen, sheets, &c., with great rapidity, beauty, and without fuel. A person with one of these machines, may do as much work as six with smoothing irons. They can be seen in operation at the Astor, St. Nicholas, Metropolitan, and the principal hotels in the city; also in a number of private families. The proprietors will give undoubted references as to their utility and use. Prices from \$40 to \$90. Liberal terms to wholesale dealers. N. B.—They can be used with steam power. Makers of

KING'S PATENT CENTRIFUGAL WRINGERS OR DRYERS.

UPRIGHT MANGLE.

This Mangle is designed for families, but can be used in small hotels. Its advantages consist in its efficiency, compactness, simplicity and low price, and takes up a space at the most of 3 feet by 2 feet. Prices from \$15 to \$30.

DUNCAN & SHARP, No. 70 Franklin St., near Cliff, New York.

JOSEPH GAWLER,

WAREROOMS & RESIDENCE, 182 PENNSYLVANIA AVE.,

Coffins of all kinds and sizes kept constantly on hand. Shrouds, Hearses, Carriages, and all articles requisite, furnished at

short notice.

Funerals conducted, and every arrangement for Interments promptly attended to.

A Refrigerator for preserving deceased persons, ready at all times. Interments obtained in all the Cemeteries and Burial Grounds. Bodies embalmed if required.

Furniture made to order, repaired, varnished, and upholstered in the neatest manner.

Goods received and returned by Express.

BARRETT, NEPHEWS & CO.,

5 & 7 John St., 2 doors from Broadway,

NEW YORK.

THE BEAUTIFUL ART

OF

EMBALMING THE DEAD.

DR. HUTTON,

The first and only Patentee for invention of Embalming Fluid in the United States.

PATENTED MAY, 1863,

WASHINGTON, D. C.,

Where he intends to convince the public that his method of Embalming exceeds any thing of like nature in the world.

Dr. H. has spent a vast amount of time, labor and money in order to bring this art to its highest state of perfection. Whether I have been successful or not, let the public judge.

BODIES EMBALMED BY ME

NEVERTURN BLACK,

But retain their natural color and appearance; indeed, the method having the power of preserving bodies, with all their parts, both internal and external,

WITHOUT ANY MUTILATION OR EXTRACTION,

And so as to admit of contemplation of the person Embalmed, with the countenance of one asleep.

The perfection to which I have brought the art of Embalming leaves little to desire. So convinced am I of the efficacy of the processes which I employ, that I shall be always ready at the request of authorities or friends to exhume those bodies which I may embalm, at any expressed period of time, knowing that each and every body thus exhumed will prove an enduring monument of my skill.

Surgeons and all interested are cordially invited to call and examine specimens after Embalmed.

PRESS No. 5, prints	13 by 19 inches,	30,00-OFFICE C	OMPLETE,	100,00.

ADAMS PRESS COMPANY,

31 PARK ROW,

NEW YORK.

The Cottage Printing Press,

From its simplicity, cheapness, and durability, is particularly adapted to the wants of those who, having no previous knowledge of the art, wish to do their own printing.

The impression is produced by means of a cylinder, the bed upon which the type are placed passing under it. The tympan moves automatically, coming down upon the type as the bed is propelled under the cylinder, and rising again when beyond it. After the bed has passed under the cylinder, and one impression taken, the printed sheet may be removed, another placed on the type, and printed upon, as the bed goes back to the starting point. The press is easily adjusted to any height of type, giving a distinct and even impression. Three hundred sheets per hour can be printed upon it with ease.

In connection with the press, we furnish the type, ink, and other printing materials necessary to enable the purchaser to strike off his handbills, circulars, billheads, cards, &c., together with complete printed instructions for managing the press, setting type, &c. No fears need be entertained as to any difficulty in working these printing offices satisfactorily, on the ground of not having previous knowledge of the art. It is easily acquired by any person of common intelligence.

The weight of these printing offices, boxed, ready for shipment, is nearly as follows: No. 1, 100 pounds; No. 2, 125 pounds; No. 3, 160 pounds; No. 4, 250 pounds; No. 5, 400 pounds.

Our Circular, giving description of the press, testimonials, &c., sent free to any address. Specimen Sheets of Type, Cuts, &c., six cents.

NEW YORK CENTRAL RAIL ROAD,

DOUBLE TRACK FOR

Albany, Troy, New York, Boston, Buffalo,

And all Points

WEST AND NORTH AND SOUTHWEST.

THE NEW YORK CENTRAL RAILWAY, running the entire length, and through the most populous part of the State, forms one of the great, oldest and best managed links of communication between the East and West.

It has two Eastern termini, one at Albany and the other at Troy, connecting at Schenectady, and running thence west through Utica, Rome, &c., to Syracuse, from which point there are two roads running to Rochester, known as the "Direct Road," viz: Port Byron, Lyons, &c., and the "Old Road," viz: Auburn, Cayuga, Geneva, Canandaigua, &c. From Rochester there are also two roads running west, one through Lockport, &c., to Niagara Falls; the other through Batavia, &c., to Buffalo. Also a branch commencing at Buffalo, and running along the banks of the Niagara River, through Tonawanda, and the village of Niagara Falls, to Lewistown; and likewise a branch from Tonawanda to Lockport.

At either Albany or Troy, passengers for New York and intermediate places connect with the Hudson River Railway, Harlem Railway, or (during the season of navigation) with North River steamers. Passengers for Pittsfield, Springfield, Worcester, Boston, Hartford, New Haven, Providence, and intermediate places, connect with Western Railway and its connections. Passengers for Saratoga Springs, Rutland, Burlington, Montreal, and all places North, also connect by Railway from either Albany, Troy or Schenectady. Passengers for Sharon Springs leave the Central Railway at Palatine Bridge, and go from there by stage. Those for Cherry Valley, Cooperstown, and places South, leave at Fort Plain. Those for Trenton Falls leave at Utica and go by railway. Those for Watertown and places North, connect with the Rome and Watertown railway, at Rome.

At Syracuse, the Central Railway connects with the S. & B. Railway, running to the Eric Railway at Binghamton, and with the O. & S. Railway, running north to Oswego. At Canandaigua with the E. C. & N. Falls Railway, running to the Eric Railway at Elmira. At Rochester with the Buffalo, N. Y. and E. R. R., running to the Eric R. R. at Corning, and with steamers for all ports on Lake Ontario. At Buffalo with steamers on Lake Shore Railway to Eric, Cleveland, Sandusky, Toledo, and thence to Chicago by Michigan Southern Railway. At Niagara Falls passengers connect with the Great Western (Can.) to Detroit, and from thence to Chicago by Michigan Central Railway. At Lewiston passengers connect (during the season of navigation) with steamers for Toronto and all ports on Lake Ontario.

C. VIBBARD, Sup't.

Commodious SLEEPING CARS are attached to the Night Trains, running East and West, on this Road.

G. S. KRAFFT,

BAKER AND CONFECTIONER,

REPORT

OF THE

Directors to the Members, at the Annual Meeting,

DECEMBER 15, 1862.

THE business of our Company, during the past year, has been thirteen hundred and sixty-four (1,364) in the number of policies issued, and three millions four hundred and fifty-two thousand one hundred and twenty-five (\$3,452,125) dollars in amount, as appears by the annexed Statement. The number of policies issued exceeds that of the preceding year by three hundred and sixty-four (364); and the amount insured gives an excess of five hundred and eighty-five thousand five hundred and fifty (\$585,550) dollars over the preceding year. The terminations by surrender, loss, and forfeiture have been eight hundred and fifty (850), showing an increase, during the year, of between five hundred and six hundred in the number of members.

The amount insured during the past year, divided by the number of policies, gives an average of twenty-five hundred and thirty-one (\$2,531) dollars to each policy. In the preceding year, the average was twenty-eight hundred and sixty-six (\$2,866) dollars, thus giving a smaller amount the past year on each policy, on an average, of three hundred and thirty-five (\$335) dollars. This diminution, in the average, arises from the fact that, on military and naval risks, the amount insured by each policy has been more strictly limited than on other risks, whereby the Company has been able to extend the benefit of such insurance to a greater number, and still keep the aggregate within a prudent limit.

The reasons for receiving such applications were stated in our last Annual Report. The members of the Company and their families, wherever resident, have the same interest in the defense and perpetuation of our institutions as other citizens, and if we estimate the number of a family to be five, on an average, this consideration would extend to about twenty-five thousand individuals, and therefore, if the assumption of such risks would have a favorable influence, it was expedient to assume them on just terms, and to not an excessive amount. The principal difficulty in the case was the want of satisfactory data on which to estimate the risk, since precedents applicable and satisfactory were wanting. But estimates were carefully made, and such rates of premium adopted, subject to modifications for the varieties of risks, as would seem to put them upon a just footing, the amount to be limited in such manner that the Company should not be subject to a material shock, though the degree of risk should eventually prove to have been under-estimated. So far as the rates adopted have been tested by experience, they seem to be fairly proportionate to the risks.

The losses, during the year, have been sixty-five in

number, on which the payments have been \$218,910.33 (including \$23,500 paid upon military and naval risks), the whole amount being somewhat below that which ought, according to approved records of mortality, to have occurred, notwithstanding a much greater proportion of extra risks by land and sea, subject to extra premium, than ordinarily comes into the tables. But we are, of course, gradually approximating, from year to year, towards the proportion due by the tables, in consequence of the increased average ages of members, on account of which a greater ratio of mortality becomes due from the Company. Our experience has not, however, been so much below that proportion as to impeach the general accuracy of the tables.

As long as the mean of the aggregate ages of the whole number of members shall continue to increase, a greater ratio of losses to the whole number will be annually due to the law of mortality.

During the nineteen years of the operation of the Company, it has paid over \$1,000,000 in losses, of which amount four-fifths have been paid, directly or indirectly, to the surviving families of deceased members. Even when the payment is made directly to the creditor, the insured party has had an advantage in obtaining the loan through such collateral, or his representatives have been benefited by the discharge of an amount of his liabilities equal to the amount paid on the policy.

The annexed Statement shows our expenses to have been, for the year, including the unavoidably large item of commissions to agents, eight and six-tenths per cent. upon the income, a ratio which will satisfy the members that economy has not been disregarded in the management of the business of the Company.

The proportional number of policies for the whole life is gradually increasing, which shows that a knowledge of the advantages of life insurance, and of the form most usually expedient, is spreading in the community.

Early in the year, a concise abstract of the history of the Company was made, copies of which, with the Report, will be supplied to members and others calling for them.

STATEMENT

OF THE

BUSINESS OF THE COMPANY,

For the Year ending November 30, 1862.

4881	Policies	outstanding November 30, 1861\$15,423,611.00
1364	"	issued since 3,452,125.00
6245	u	\$18,875,736.00

24	356.80	41	505.00	58	736.00
25	363.80	42	516.00	59	751.50
26	370.80	43	527.20	60	766.50
					and the same

Thus, a person aged 30, to insure \$1000, would pay \$400.60, and be relieved of all future annual payments. He would share in the distributions of the Company the same as though an annual payment were made through life. The single payment could be made in cash, or a note could be given for the amount, bearing interest at 4 per cent. per annum, upon which note an amount would have to be paid annually, equal, at least, to what would have been the annual premium. The interest is first deducted from the annual payment, and the surplus is indorsed upon the note. After a series of years, the note is liquidated.
